

Intersections

One of the most dangerous areas in any road is the intersection. Cross traffic, turning vehicles and pedestrians can make getting across an intersection dangerous.

Many intersection accidents occur when drivers fail to use their turn signals or don't know the right-of-way laws. Aggressive drivers will try to beat the red light and speed dangerously through an intersection.

Using defensive driving techniques can be summarized in the phrase:

“Know, Show, Slow, Go”

- Know** – Know who has the right-of-way, but never insist on the right-of-way.
- Show** - Communicate your intentions to other drivers. Use your turn signals, brake lights and flashers.
- Slow** - When approaching an intersection, you must slow down and be prepared to stop.
- Go** - Verify the intersection is free of vehicles and pedestrians; then go safely.
